OHIO ENVIRONMENTAL PROTECTION AGENCY**

**Public Notice
Proposed Rulemaking Governing
Monitoring Requirements**

Notice is hereby given that the Director of Environmental Protection, under the authority of Sections 6109.23, 6109.121, 6109.04 of the Ohio Revised Code and in accordance with Chapter 119, proposes to amend the following rules of the Ohio Administrative Code:

<u>Rule #</u>	<u>Title</u>
3745-81-23	Inorganic chemical monitoring requirements.
3745-81-24	Organic chemical monitoring requirements.
3745-81-26	Radionuclide monitoring requirements.

These rules have been reviewed pursuant to the five-year rule requirements set forth in ORC 119.032. Potential revisions to rules governing source monitoring include:

- 3745-81-23:
 - Removal of excess regulatory restrictions.
- 3745-81-24:
 - Grammatical changes and fixing typos.
 - A(3) - change monitoring requirements for VOCs for new PWSs to require monitoring in the first full calendar quarter instead of the first quarter of the next calendar year to prevent unnecessary delays in monitoring.
 - C(4) – add clarity to when the samples will be averaged (i.e., must be during the scheduled collection period).
 - C(11) and (12) – change to “all PWS must submit their SMP” instead of just surface water.
- 3745-81-26:
 - Adding an annual monitoring period for radiological monitoring for additional flexibility between quarterly and triennial monitoring.
