The referenced standards are generally available to the affected parties. The referenced standards can easily be purchased from the standards making organization. The affected parties typically would be product manufacturers, design professionals, builders, and contractors. These parties would be expected to already own the standards in order to conduct their business of manufacturing, testing, designing, and installing the building systems and products.

FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase / decrease** either **revenues / expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will have no impact on revenues or expenditures.

\$0.00

This is a building design issue. It does not fiscally affect the board.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

Not applicable.

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

Due to the variance in allowed building design, it is nearly impossible to ascertain, in dollars, a cost increase or decrease in the design cost of a building as a result of this proposed rule change. In conjunction with a team of constituent code experts, however, the Board has evaluated the overall cost impact of the significant changes included in a proposed rule change within a range of high savings impact, moderate savings impact, neutral impact, moderate cost impact, and high cost impact. Proposed rescinded rules were not included within the scope of this evaluation.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
