FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase /decrease** either **revenues /expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will decrease expenditures.

\$120,000

The department estimates that the proposed rule will reduce expenditures by \$120,000 over the next biennium by decreasing the number of eligible families that receive special needs child care, based solely on the special needs of the child. The net effect on the agency's budget is that the reduced expenditures will assist the agency in balancing the expected program growth with expected revenues.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

Line items: 600-413, 600-617, 600-620, and 600-689.

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

County departments of job and family services will have costs for administrative time to conduct reviews for cases that come due during a short period outside of the routine review schedule. A small number of families will be affected. Due to the change in eligibility some providers may be negatively impacted. Please note, however, that providers can still request additional reimbursement for providing care to children with special needs.

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
