- CenterWell Pharmacy (organization) – Comments regarding rule 4729:5-5-26

### **Consolidated Summary of Comments Received**

- CenterWell Pharmacy wanted clarification about what qualifies as a patient's general consent for delivery services, and also said they believed the existing processes for refunds and notifications helped patients receive their medications in an efficient manner while providing protection in the event they receive an unwanted prescription.

### **Incorporated Comments into Rule(s)**

- We incorporated CenterWell Pharmacy's comments into the new rules, adding the following language to 4729:5-5-26(B)(1): "In lieu of contacting the patient or patient's caregiver to obtain consent, the pharmacy shall provide a refund if the patient or

patient's caregiver notifies the pharmacy that a dispensed drug or device was unneeded or unwanted.”
