

CSI - Ohio

The Common Sense Initiative

Business Impact Analysis

Agency Name: Ohio State Dental Board

Regulation/Package Title: 2013 – Amended Rules Chapter 11

Rule Number(s) 4715-11-02

Date: _____

Rule Type:

New
 Amended

5-Year Review
Rescinded

The Common Sense Initiative was established by Executive Order 2011-01K and placed within the Office of the Lieutenant Governor. Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Agencies should promote transparency, consistency, predictability, and flexibility in regulatory activities. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Regulatory Intent

1. Please briefly describe the draft regulation in plain language.

Please include the key provisions of the regulation as well as any proposed amendments.

4715-11-02 Basic qualified personnel; functions.

This rule sets forth the dental tasks and procedures the basic qualified personnel may perform under the direct supervision of a licensed dentist. Amendments to this rule expand these permissible practice functions to include “caries detection” and “periodontal susceptibility and detection” as well as, define the latter.

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIOhio@governor.ohio.gov

2. Please list the Ohio statute authorizing the Agency to adopt this regulation.

4715.39 Permitted duties.

3. Does the regulation implement a federal requirement? Is the proposed regulation being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal law or to participate in a federal program?

If yes, please briefly explain the source and substance of the federal requirement.

The proposed amendment does not implement a federal requirement or being amended to enable the state to obtain or maintain approval to administer and enforce a federal law or to participate in a federal program.

4. If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.

This question is non-applicable since the proposed amendment does not implement a federal requirement.

5. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?

The General Assembly determined that the profession of dentistry required regulation and established a Board to license individuals and enforce the law and rules governing the practice of dentistry in Ohio. These regulations allow the Board to carry out its' statutory mission to ensure protection of the public.

6. How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?

Success will be measured by having a clear rule written in plain language, by licensee compliance with the rule, and minimal questions from the licensees regarding requirements of the rule.

Development of the Regulation

7. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.

If applicable, please include the date and medium by which the stakeholders were initially contacted.

The Board's Law and Rules Review Committee (Committee), holds open meetings throughout the rule review year. The Committee is comprised of fourteen (14) members including representatives of the Board, the Ohio Dental Association and the Ohio Dental Hygienists' Association. Additionally, the Board sends public notices and proposed Rule Review agendas to the Board mailing list; a listing of parties interested in all Board

proceedings. The Committee met with the opportunity to discuss these rules in May, June, August, September, and December 2012.

8. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

Discussion by the Committee resulted in the decision to expand the permissible duties of basic qualified personnel under the direct supervision of the licensed dentist.

9. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

Scientific data was not used to develop the rules as these rules are not data driven.

10. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?

No alternative regulations were considered by the agency since it was determined that the rule provides specific clarity required by ORC 4715.53.

11. Did the Agency specifically consider a performance-based regulation? Please explain. *Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.*

The Board did not see an application for the rule to be performance-based.

12. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?

The five-year rule review process is conducted with a focus on eliminating obsolete, unnecessary, and redundant rules and avoiding duplication. In addition, meetings with interested parties help to ensure that these rules do not duplicate any existing Ohio regulation.

13. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the
The Board will continue to use its website and social media links to educate and update licensees on its rules. Board employees provide informational presentations to stakeholder organizations and groups of dental personnel in an effort to keep the dental profession apprised of current regulations. Stakeholder organizations also ensure that rules, particularly amended rules are provided to their members through communications and CE opportunities. Staff training is conducted for rule changes to ensure that regulations are applied consistently.

Adverse Impact to Business

14. Provide a summary of the estimated cost of compliance with the rule. Specifically, please do the following:

- a. Identify the scope of the impacted business community;
- b. Identify the nature of the adverse impact (e.g., license fees, fines, employer time for compliance); and
- c. Quantify the expected adverse impact from the regulation.

The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a "representative business." Please include the source for your information/estimated impact.

This rule should have no cost of compliance or adverse impact on the regulated community.

15. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

This rule should have no cost of compliance or adverse impact on the regulated community.

Regulatory Flexibility

16. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

This rule does not provide any exemption or alternative means of compliance for small businesses. All licensed dental personnel under ORC 4715 must have a license or certificate to provide services in Ohio. The law does not differentiate on the size of the business and therefore, this rule applies to all licensed, certified, or registered providers.

17. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

ORC 4715 does not allow for the implementation of fines or penalties. Therefore, this is not applicable.

18. What resources are available to assist small businesses with compliance of the regulation?

Resources available to assist small businesses with compliance are the Boards law, rules and policies posted online at the Boards website. Additionally, Board staff respond verbally and in writing to queries from interested parties.
