The Common Sense Initiative was established by Executive Order 2011-01K and placed within the Office of the Lieutenant Governor. Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Agencies should promote transparency, consistency, predictability, and flexibility in regulatory activities. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

All rules in this packet are being rescinded and redrafted as new rules in order to re-align, re-number and re-title them. This process reflects a thorough review and restructuring of all child care licensing rules to ensure ODJFS is mandating *only* essential health and safety requirements and excluding any requirements that could impede the economic viability of small business in Ohio. The rescinding of these rules also reflects the end of duplicative rule standards for child care centers.

The rescinding of these rules does not create extra costs; reporting activity; or cause any sanctions of law for non-compliance as a result of their rescission. In their totality, these rules do not have adverse impact on small businesses.
