The Common Sense Initiative was established by Executive Order 2011-01K and placed within the Office of the Lieutenant Governor. Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Agencies should promote transparency, consistency, predictability, and flexibility in regulatory activities. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

9. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

Not applicable.

10. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?

There were no alternatives considered for the rules as all parties involved were satisfied with the rules and because the rules are driven by statute.

11. Did the Agency specifically consider a performance-based regulation? Please explain.

Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.

ODJFS did not consider a performance-based initiative, but rather followed statutory language prescribing that the department set standards to ensure the well-being of every child in temporary custody.

12. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?

The JCARR prong for invalidation: "Rules do not conflict with a rule of its own or another rule-making agency" has been an ongoing deterrent to duplication. JFS Legal staff and rule developers diligently review rules to assure there is no duplication of an existing Ohio regulation.

13. Please describe the Agency’s plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.

Once the rules are final filed, a transmittal letter will be generated explaining the changes to the rules and the rationale for the changes. The transmittal letters can be viewed at <http://emanuals.jfs.ohio.gov/FamChild/FCASM/FCASMTL/>. The rules do not prescribe anything that would not be applied consistently. ODJFS licensing specialists review the agencies to ensure the regulations are applied consistently and they offer technical assistance in areas of inconsistency.

Adverse Impact to Business

14. Provide a summary of the estimated cost of compliance with the rule. Specifically, please do the following:

a. Identify the scope of the impacted business community;

The rules of the Administrative Code in Chapter 5101:2-42 contain requirements for children in temporary custody and placed into substitute care by public and private agencies. Requirements must be met to obtain and/or maintain certification for PCPAs and PNAs. There are currently 26 certified PCPAs and 141 PNs in Ohio.

b. Identify the nature of the adverse impact (e.g., license fees, fines, employer time for compliance); and

5101:2-42-04 The requirements must be met for PCPAs to obtain and/or maintain certification by the state. These requirements include executing forms to either accept custody by permanent surrender or temporary custody and extending the custody episode if necessary. Identifying costs as they relate to time spent completing forms depends on so many different variables, that it is nearly impossible to approximate. These variables include agency composition and staffing and availability of appropriate placements. All activities to assume or retain custody are to comply with rules 5101:2-42-06, 5101:2-42-08, 5101:2-42-09.

5101:2-42-05 The requirements must be met for PCPAs to obtain and/or maintain certification by the State. These requirements include exploring relatives willingness and ability to assume temporary custody/guardianship of the child; exploring placement with a suitable non-relative with ties to the child/family; assuring the placement home conditions are suitable with regard to cleanliness, proper heating/cooling, smoke detectors, etc.; that all persons in the

home meet the foster care certification standards set forth in rule 5101:2-42-18; and that substitute care settings have been licensed, certified or approved by ODJFS. Identifying costs as they relate to time spent completing forms depends on so many different variables, that it is nearly impossible to approximate. These variables include agency composition and staffing levels, the number of children in care or custody, the individual needs of each family, and availability of appropriate placements. All placement activities are to comply with rules 5101:2-42-18.1 and 5101:2-48-13 of the OAC and with guidelines of the Federal Multiethnic Placement Act.

5101:2-42-08 – The requirements of JFS 01645 must be met for PCPAs to obtain and/or maintain certification by the State. Identifying the costs to the PCPAs as they relate to time spent completing forms depends on many different variables. Variables include agency staffing and composition, the individual needs of the child and family, and the number of children in care or custody. The agency is not subject to any court costs or filing fees for making an extension request. The rule reference changes in paragraph (1) of this rule were made due to the rescinding and chapter relocation of the cited rules. The rule citation changes place no new requirements on agencies.

5101:2-42-09 The requirements must be met in order for PCPAs to obtain and/or maintain certification by the State. Identifying the costs to the PCPAs as they relate to time spent completing forms, such as a case plan, depends on many different variables.

The variables include:

- Individual needs of the family
- Holding family meetings
- The agency composition and number of assessors employed at the agency
- Case plan preparation and identified services and needs
- The timeliness of documents processed in juvenile court

There is no cost associated with juvenile court filings.

5101:2-42-18.1 The requirements must be met for PCPAs to obtain and/or maintain certification by the State. Identifying the costs to the PCPAs as they relate to time spent conducting assessments regarding whether a child has individual needs involving race, color or national origin are nearly impossible to approximate. As each child and case is different, many

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIOhio@governor.ohio.gov

variables including whether an assessment is necessary, are involved in making such determinations. When an assessment is deemed necessary, the child is referred to an outside provider and the cost would be billed as a Medicaid service. If the assessment is deemed necessary, then the agency is required to complete the JFS 01688 and the provider is required to complete the JFS 01608. Each, as well as the JFS 01611, are directly related to the requirements set forth in the Federal Multiethnic Placement Act of 1994.

5101:2-42-64 PCPAs are to provide or arrange preplacement services when substitute care placement of the child is to occur. The requirements must be met in order for PCPAs to obtain and/or maintain certification by the state. The cost to the PCPAs as they relate to providing services depends on many different variables. Identifying the cost to the PCPAs as they relate to pre-placement services include; arranging at least one pre-placement visit with the caregiver, counseling and establishing communication with the child and his or her parent, guardian, or custodian regarding feelings of separation. All activities are to comply with rules 5101:2-52-04, 5101:2-52-06, 5101:2-39-01 and 5101:2-39-03 of the Ohio Administrative Code (OAC).

5101:2-42-65 The requirements for PCPAs regarding caseworker visits and contacts with the child and the substitute caregivers to ensure the child's safety and well-being, and to assess whether the placement and services continue to meet the child's needs in accordance with the case plan. The requirements must be met in order for PCPAs to obtain and/or maintain certification by the State. Identifying the costs vary greatly, that it is nearly impossible to approximate.

5101:2-42-67 The requirements for PCPAs to begin a "life book" for a child in substitute care containing information to be kept on file, shared with the child and to accompany a child during placement changes. The timeframe for preparing a "life book" and completing updates every six months. The requirements must be met to obtain and/or maintain certification.

5101:2-42-68 The requirements for PCPAs is to provide the guidelines for PCPAs on the steps to determine the necessity of continued substitute care placement for each child. The requirements must be met in order for PCPAs to obtain and/or maintain certification by the State.

CSIOhio@governor.ohio.gov

5101:2-42-71 The requirements must be met for PCPAs to obtain and/or maintain certification by the state. There may be a cost to: evaluate and process applicants for adult-supervised living arrangements; develop procedures for reviewing complaints and maintain records. Information must be reported on the JFS 01348. Identifying costs as they relate to time spent completing forms depends on so many different variables, that it is near impossible to approximate. These variables include the investigation of an adult-supervised living arrangement and the entire process of removing an applicant from a setting and terminating an adult-supervised living arrangement if the complaint is determined conclusive. All activities for adult-supervised living arrangements are to comply with Chapter 5101:2-5, 5101:2-7 and 5101:2-9 of the Ohio Administrative Code (OAC).

5101;2-42-88 The requirements must be met to obtain and/or maintain certification. The timeframe for documenting into the case record a disruption of a child's substitute care placement.

5101:2-42-92 The timeframe for reviewing for JFS 01413 to assist in decisions to guide the frequency, duration and location of visits or to determine the level of supervision needed during visits. The requirements must be met to obtain and/or maintain certification.

5101:2-42-93 The requirements must be met in order for PCPAs to obtain and/or maintain certification by the State. All documentation related to notices to changes in placements or visitation plans and/or written decisions of a review agent required by this rule shall be maintained by the agency in the child's case record. Identifying costs as they relate to time spent regarding a change of placement depends on so many different variables, that it is nearly impossible to approximate. These variables include agency composition and staffing and availability of appropriate placements. All activities to change

5101:2-42-95 The requirements of the rule must be met to terminate the custodial rights of parents and place the child in agency custody into a permanent family or planned permanent living arrangement. Failure to do so will result in a loss of certification for non-compliance. The employer's time is involved in petitioning the courts; amending the case plan and submitting it to the court.

c. Quantify the expected adverse impact from the regulation.

The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a “representative business.” Please include the source for your information/estimated impact.

The adverse impact would only be regulated to time spent adhering to rule regulations and reporting the information necessary for rule compliance.

15. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

To ensure the safety of children in substitute care, the adverse impact of these rules is necessary.

Regulatory Flexibility

16. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

For these rules, there is no alternative means of compliance.

17. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

If an agency does not comply, the result will be a forfeiture of certification through denial or revocation.

18. What resources are available to assist small businesses with compliance of the regulation?

ODJFS has a regional office with a licensing specialist that will be assigned to assist the agency in the entire application process including assistance with the proper information required by this rule if the agency chooses to use a certification to meet Ohio requirements.
