The Common Sense Initiative is established in R.C. 107.61 to eliminate excessive and duplicative rules and regulations that stand in the way of job creation. Under the Common Sense Initiative, agencies must balance the critical objectives of regulations that have an adverse impact on business with the costs of compliance by the regulated parties. Agencies should promote transparency, responsiveness, predictability, and flexibility while developing regulations that are fair and easy to follow. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

**Reason for Submission**

1. R.C. 106.03 and 106.031 require agencies, when reviewing a rule, to determine whether the rule has an adverse impact on businesses as defined by R.C. 107.52. If the agency determines that it does, it must complete a business impact analysis and submit the rule for CSI review.

Which adverse impact(s) to businesses has the agency determined the rule(s) create?

The rule(s):

- a. Requires a license, permit, or any other prior authorization to engage in or operate a line of business.
- b. Imposes a criminal penalty, a civil penalty, or another sanction, or creates a cause of action for failure to comply with its terms.
- c. Requires specific expenditures or the report of information as a condition of compliance.
- d. Is likely to directly reduce the revenue or increase the expenses of the lines of business to which it will apply or applies.

**Regulatory Intent**

2. Please briefly describe the draft regulation in plain language.  
*Please include the key provisions of the regulation as well as any proposed amendments.*

service actions which all parties engaging in the administration, use or provision of HPP related services to Ohio injured workers pursuant to addressing an allowed medical condition resulting from a workplace injury must adhere. These proposed rules will support the charge as set forth in R.C. 4121.44(B)(1), (2) and (4) which provide that, to implement the HPP, the Administrator shall “certify one or more external vendors, which shall be known as ‘managed care organizations,’ to provide medical management and cost containment services” in the HPP for a period of two years beginning on the date of certification; the Administrator may recertify the MCOs for additional two year periods; and the Administrator may “enter into a contract with any managed care organization that is certified by the bureau . . . to provide medical management and cost containment services” in the HPP.

Further, the proposed rules support the charge pursuant to R.C. 4121.441(A) which provides that the Administrator, with the advice and consent of the BWC Board of Directors, shall adopt rules for implementation of the HPP “to provide medical, surgical, nursing, drug, hospital, and rehabilitation services and supplies to an employee for an injury or occupational disease . . . and to regulate contracts with managed care organizations pursuant to this chapter.”

program parameters and service actions which all parties engaging in the administration, use or provision of HPP related services to Ohio injured workers pursuant to addressing an allowed medical condition resulting from a workplace injury must adhere

**14. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?**

BWC is the only state agency responsible for regulating HPP related medical services for Ohio's workers' compensation programs.

**15. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.**

Once the rules are approved and through the JCARR process, the BWC staff impacted by the rules will be informed of the effective date. The various units of the Medical Services Division of BWC will coordinate communication and training to internal BWC staff and the MCOs. BWC's Medical Services Division will also ensure that relevant sections of the MCO Policy Guide and the Provider Billing and Reimbursement manuals are updated to reflect appropriate rule modifications

**Adverse Impact to Business**

**16. Provide a summary of the estimated cost of compliance with the rule. Specifically, please do the following:**

**a. Identify the scope of the impacted business community; and**

All HPP services providers, self-insured employers, and MCOs.

**b. Identify the nature of all adverse impact (e.g., fees, fines, employer time for compliance,); and**

Impact is in the nature of HPP services providers', self-insured employers', and MCOs' time for reviewing or receiving education on the changes, as well as applying any modifications to relevant systems.

**c. Quantify the expected adverse impact from the regulation.**

*The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a "representative business." Please include the source for your information/estimated impact.*

[CSIPublicComments@governor.ohio.gov](mailto:CSIPublicComments@governor.ohio.gov)

Estimated time which HPP services providers, employers, and MCOs may need to adjust to the changes is at less than 15 hours.

**17. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?**

BWC is attempting to meet the legislative intent by setting forth appropriate and clear direction of program parameters and service actions which all parties engaging in the administration, use or provision of HPP services to Ohio injured workers pursuant to addressing an allowed medical condition resulting from a workplace injury must adhere. The rules have been reviewed and appropriately modified to add additional clarity of program parameters and service actions which all parties engaging in the administration, use or provision of HPP services need to take to ensure service access, quality and cost efficiencies.

**Regulatory Flexibility**

**18. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.**

No. The rules are to provide guidance and clarity of program parameters and actions which all parties engaging in the administration, use or provision of HPP services must take to ensure service access, quality and cost efficiencies, and timely provider reimbursements, which leads to quality medical care, as well as a successful and safe return to work for injured workers.

**19. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?**

N/A

**20. What resources are available to assist small businesses with compliance of the regulation?**

The MCOs have a responsibility in the contract they sign with BWC to provide training and support to all providers they utilize in managing the medical care of their injured workers. Additionally, by contract the MCOs are responsible for providing education and support to injured workers and employers on all workers' compensation services and programs including medical services. The various units of the Medical Services Division will also provide support and direction to impacted businesses regardless of size with respect to meeting Bureau regulations.
